WORKFORCE STRATEGY & TIMELINE

Karen Sloan
Director of HR for ITS & Workforce Strategy Lead, NextGen Program Office
Workforce Transition Process

Small groups of units will be divided into three “waves” of workforce activities. Each wave will include:

- **Kick off session with Unit Reps** to provide technical, financial, and workforce details
- **Unit and ITS discussions** to come to decisions about who will move to ITS and who will remain in unit
- **Deadline for final workforce decisions**
- **Unit manager/employee meetings** to inform employees about decisions, answer questions & provide additional details
Guiding Principles for Workforce Transition

1. Retain staff members, regardless of unit affiliation, who are high performers and possess the skills, knowledge, and ability to perform the available work, in both shared service providers and units.

2. Build the knowledge, skill, abilities, and personal effectiveness of IT professionals across campus to support the U-M IT goals.

3. Engage Program, Academic, and Administrative leadership in a collaborative process for defining approach, executing the transition process, and making transition decisions.

4. Implement workforce plans that ensure appropriate staffing

5. Encourage high potential/high performing staff, irrespective of current unit/department, to apply for open positions at U-M.
Many unit staff perform activities that are not covered by the new services. For these cases, a rule of thumb was developed to guide decision making.

- Does a position move?
- Does a person move?
- How are remaining activities covered?

FINANCIAL TRANSITION

Jeff Kennedy
Executive Director of ITS Finance
Academic & Research - Transition Process

- ITS will take on expense of transferred staff
- Units will keep budget
- ITS will bill units for services
- Units retain savings over time
Rate Projections

- MiWorkspace billings will be based on a rate per person in your unit
  - Headcount data obtained from Provost’s Office based upon Human Capital Report
    - NOTE: ITS to clarify with Provost’s Office how headcount is calculated and discuss with units as part of leadership engagement
  - Cost of devices remains responsibility of Unit

- MiWorkspace Rate projections
  - Original projections were $1000/year/headcount for FY14
  - Rates are projected to decrease in subsequent years as efficiencies are achieved
  - Targeted rate at maturity is between $800 and $900
  - Updated projections are under review
  - Unit by unit impact is TBD

- MiServer / MiDatabase have separate approved rates
